

King's Hill Primary School

Art & Design Curriculum Overview 2022

The curriculum for Art & Design provides our pupils with a wide variety of opportunities to explore colour, texture, shape and form in 2D and 3D. The Art curriculum is taught in the main, through a topic approach, which we plan carefully to engage all learners and ensure they develop a wide range of techniques in using colour, pattern, texture, line, shape, form and space.

Pupils use drawing, painting and sculpture to develop and share their ideas, experiences and imagination as well as developing their knowledge about artists, craft makers and designers. Pupils also have sketchbooks to record their observations and they use them to review and revisit their artistic ideas.

	AUTUMN	SPRING	SUMMER
